UNION STOCKYARDS, INDIANAPOLIS, Aug. 5 .- Cattle-Receipts, 800; shipments, The receipts to-day were over 100 smaller than a week ago and 150 smaller than a year ago. Practically all kinds of cattle were represented in the arrivals except the best export steers. The market opened with a continued steady demand for all cattle that were up to the requirements of killers, and sales of that class were usually at fully steady prices compared with those current the past few days. There was practically no competition for the heaviest steers, however. The market continues very dull and slow for all except cattle below the requirements in quality, fat or weight, and it is impossible to make a report that can be relied upon. There was very little inquiry for stockers and feeders. Native steers sold as high as \$7.00 Texas \$5.25, and heifers and cows \$5.25.

The receipts to-day were about 1,000 smaller than a week ago and 5,000 smaller than a year ago. The market opened with practically all buyers in the field, but there seemed to be no really urgent orders and the bidding at the start was a trifle slow and lower.

In harmony with other places salesmen expected to have to make concessions comdid not require a great deal of time to fix a trading basis. The demand, as usual for some time past, was better for the good light hogs than other grades, and they were the first to sell, but a satisfactory clearance of all kinds was finally made at prices generally considered 5c lower than last Saturday. Sales ranged from \$7.35 to \$7.65 and the bulk of the supply sold at \$7.45@7.55. Quotations:

The receipts to-day were about the same as a

week ago and fully 400 smaller than a year ago. The market opened with some of the regular buyers out of the field, but there was a fair demand from local butchers and little request from outside sources. The competition, however, was not strong, and as a rule concessions in prices were asked. Salesmen were holding their best lots at about steady prices and finally succeeded in getting that in some instances, but the tendency was lower in most cases. In a general way the market to-day was about 50c lower than the high time last week. Lambs sold as high as \$5.50 and sheep \$3.50. Quotations:

don Have No Effect at Home.

[Meyer & Kiser's Telegram.] NEW YORK, Aug. 5.-Prices for American securities in the London market were a fraction higher on the resumption of business there, but trading was dull and cable quotations had little influence on this market, which bordered on stagnation, fluctuations, wherever they occurred, being within a very small radius and prices a trifle lower than at the opening.

There was no news and the leaders of the market evidently adopted a waiting policy for the time being. The duliness is likely to prevail until the money outlook, especially for time money, becomes somewhat more reassuring. Earnings, crop reports and general business conditions are all favorable, and there is no apparent desire to sell actual holdings. The market has narrowed down to professional trading, and for the time being the only good policy seems to be to wait for more decided movement or to be content with small profits as opportunity may offer.

Dull Scalpers' Market.

Granger Farwell & Co.'s Telegram. NEW YORK, Aug. 5.-There are fracin most cases. Room traders who followed the advance in New York Central caused some reaction at the last in it by evening up. The market was mostly a scalping affair, with support on the decline and plenty of stocks for sale on moderate advances. There is nothing to indicate what to-morrow's market will do.

SEPTEMBER CORN LEADS THE SLUMP IN CHICAGO PITS.

Losses Range from 1-4c in Oats to 1 1-2c in Corn-Provisions Irregular, but Close at Gains.

CHICAGO, Aug. 5 .- Grains were heavy to-day and prices declined sharply. September wheat, depressed by almost perfect harvesting weather in the spring wheat country and by very heavy receipts, dropped to the lowest price so far this season. Corn also ruled very weak on heavy selling notwithstanding receipts were falling off greatly. At the close of trade September wheat had lost %@%c, corn 1%@1%c and oats 140%c. Provisions closed 21/20 121/2c higher.

at the opening of trade. Cables were firm, grading was very poor and there were rains in the Western States and in the Ohio valley. September started 1/3c up to 1/3c down, at 70c to 69%c, and sold at 70%c. Soon, however, the perfect weather Northwest began to have a decidedly bearish effect on the crowd. Receipts here and Southwest were large and at primary points free selling, and September dropped to the low level for the crop-69c. Bradstreet reported a decrease in the world's visible supply and the seaboard cleared equivalent to PARIS .- Three per cent. rentes, 100f 75c | 756,000 bushels in wheat and flour. These factors had a checking influence on the decline, but the close was weak and heavy. September %@%c down, at 69@69%c. The seaboard did a fair business. The volume of trade here was not large and was mostly of a professional character. Local receipts were 546 cars, eight of contract grade; Minneapolis and Duluth reported 173 cars, a total of 719, against 788 last week and 680 a year ago. Primary receipts were 1,925,000 bushels, against 901,000 last year. The seaboard reported thirty-nine loads taken for

Corn receipts here to-day were only sixtyine cars and estimates for to-morrow were but twenty-five cars. For a moment prices in this pit edged above the closing figures | Shoulders Square steady at 48c. Lard-Prime of yesterday, but bullish statistics could not overcome the decidedly bearish sentiment of the crowd. Heavy selling of Sep-Higher Prices for Americans in Lon- | tember soon after the opening caused the slump. Offerings came out abundantly and there was no let up to the pressure until September had dropped from 571/2c to 55%c. The big interests identified with the free selling of the last several days were in the pit selling. In the absence of anything that resembled support no one wanted the corn. Stop loss orders came out and helped in the decline. Liverpool was strong and as much as %c higher, but exerted no influence. At the bottom there was some buying by commission houses and by shorts who covered. This brought a slight rally, but September closed very weak and 1%@11/2c down, at 55%c. The weather West, while rainy, was considered favorable to the growth of the crop. Oats held up well against the depression of the other grains. There was a dip early and again late, influenced by liberal receipts and the corn break, but the weather was against the harvests, and reduced estimates of arrivals checked any sympathetic declines of moment. The cash demand also was fair. September sold from 321/26325/sc to 31%c and closed easy and 14@%c down, at 31%@32c. Receipts were 316 cars.

Provisions were quiet but somewhat irregular. Hogs at the yards were weaker for poor grades and higher for the best. Early liquidation depressed products, but good Milwaukee support brought a brace in the market and everything advanced. September pork closed 121/2c up, at \$16.85; lard 21/2c higher, at \$10.85, and ribs 71/2c advanced, at Estimated receipts for to-morrow-Wheat 390 cars; corn, 25; oats, 85; hogs, 21,000 head.

BOSTON, Aug. 5 .- Business in the wool mark-

et is light this week, orders having diminished perceptibly during the past six days. Dealers have been quite busy, however, filling orders which came in during the so-called rush period last month. There has seldom been a summe in which the general tone has been healthier than this. The excitement in the West has, till this week been marked by a liberal movement in the market, and the very large consumption of wool is best evidenced by the fact that, though usually very few mills make their light weights of new wool, this year wool shorn this spring is being rushed forward quite generally for imme diate consumption. It looks like a good domestiwool season for some months to come. Stocks o foreign wools are the lightest for years at this season, and no further supplies of moment are akely to turn up till early winter. A notable feature is the sudden running out of when any really large demand is developed, as recently in the case of Texas wools and of and generally higher.
